Feb 21, 2011 - Understanding the proper arm slot is an extremely important part of [baseball drills](#) when working on proper throwing mechanics, especially if you are a pitcher. Instead of experimenting with different unproven tools, you can use a revolutionary product like 2Suro to improve your throwing technique and take your game to the next level. Chris O'Connor, official spokesperson for 2Suro talks about how different products can redefine how you practice and the quality of that practice session. He states, "You can say goodbye to the conventional ways to practice, such as, the towel drill and other methods that have little or no use in the long run. 2Suro has been designed to make sure you get the best throwing workout regardless of space, weather, or lack of partner. 2Suro will help you perfect your proper release point, as well as, work on your mechanics alone or with your coach or trainer."

He further highlights how a product like 2Suro is a huge improvement over conventional methods. He states, "When you start with [pitching drills](#), it is important that you know the proper point release and control the ball's release. This is not possible when performing the towel drill because you have to imagine the towel is the baseball. Our product allows you to keep the baseball in your hand while you practice your throwing skills in front of your coach or even the mirror. It has been prepared to give you the necessary two phase motor exercise for baseball practice drills so you can work on the arm and the wrist at the same time."

The benefits and advantages of using the 2Suro are many. There are two different versions of 2Suro - 2Suro Youth and 2Suro Adult. Both of them have been designed keeping the specific age of each group in mind. You can increase your arm strength and build muscle memory that is essential in progressing to the next level. 2Suro can be used inside your home or gym when the weather conditions are bad so that you never miss your workout. The price is extremely competitive and is a great find for players of all skill levels. Mr. O'Connor states, "If you want to know more about how you can succeed with 2Suro, you can visit our website at <http://www.2suro.com> and make sure that your workouts contain baseball drills that can take you to the next level and gives you the edge you need to succeed."
